

A black and white photograph of two women wearing saris, looking at a smartphone together. The woman on the left is smiling broadly, and the woman on the right is also smiling and looking at the phone. The phone is held in the woman's hands at the bottom right of the frame.

**Hands-on Training  
on  
Mobile-based data  
collection, analysis  
and visualisation  
for Civil Society**

**Duration:  
5 days from Feb 1<sup>st</sup>  
to 6<sup>th</sup> 2021**

**Trainers**

**Nidhi and Pankaj Shrivastava**

**Tathyashodh Consultants**

**Dehradun India. Ph: +91 94120 55261**

**[ceo@tathyaconsultants.com](mailto:ceo@tathyaconsultants.com)**

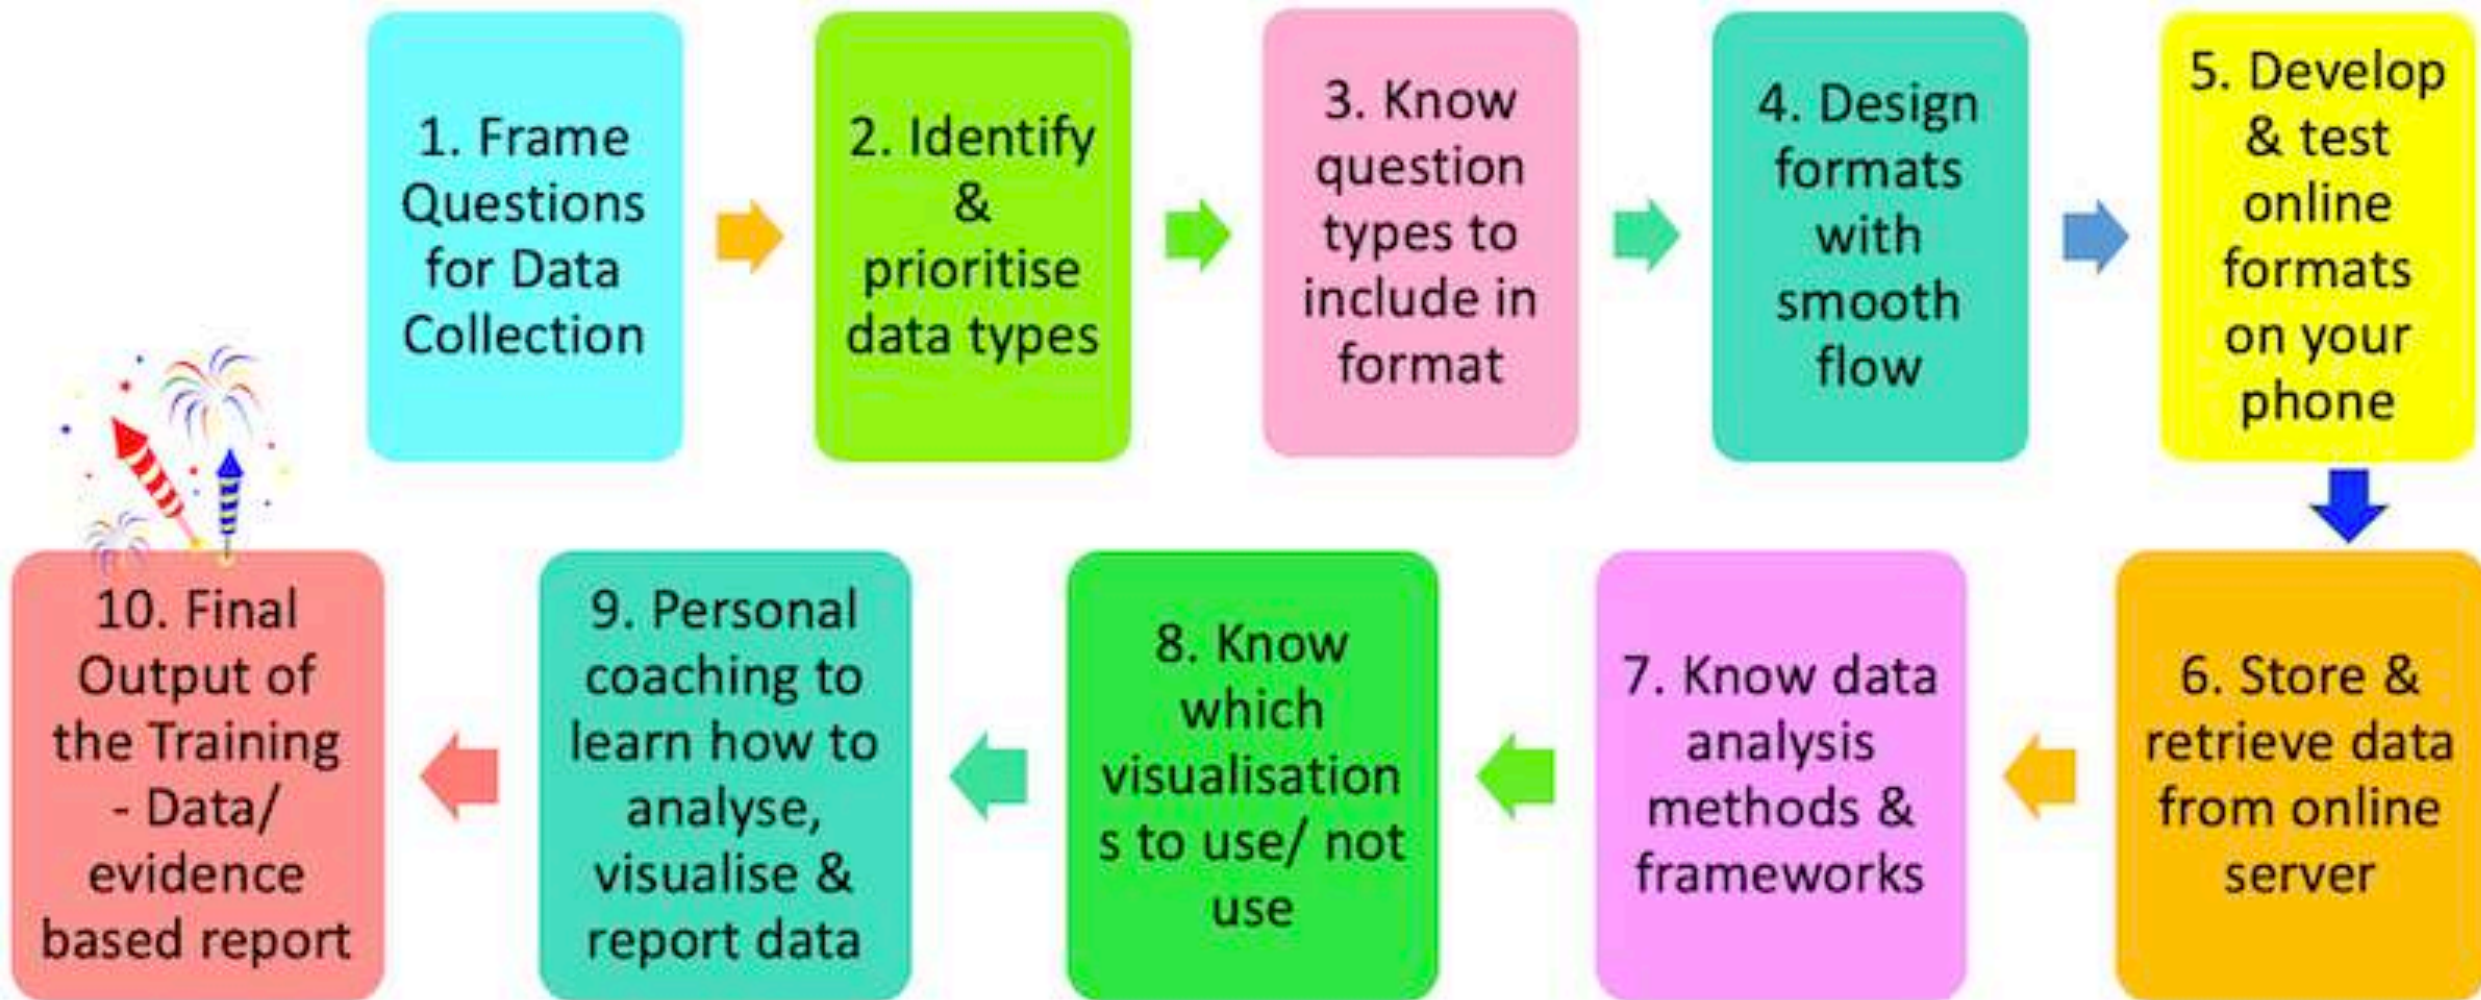

# The need for this training

- More and more **donors** are asking for **evidence** of change brought by Civil Society Organisations but we don't know how to collect & analyse data.
- NGOs and individuals themselves would also like to collect data about their **beneficiaries** and the **change they are making** through development interventions.
- **External** parties providing data collection services are very **expensive**.
- **The Solution? Learn Mobile based Data Collection Yourself!**

# 10-step process to learn mobile data collection

# Why is this online workshop unique?

- **Hands on practical experience** on Android mobile data collection and visualisation
- Training is in **Hindi and English**. PPTs in English.
- We only use **free (open source) mobile tools**
- **Our Promise** : If you work hard, you **WILL** learn mobile data collection, analysis, reporting by end of training
- Each participant will get online **personalized coaching** at every step
- **Trainers have successfully completed many projects on data** collection and MIS design

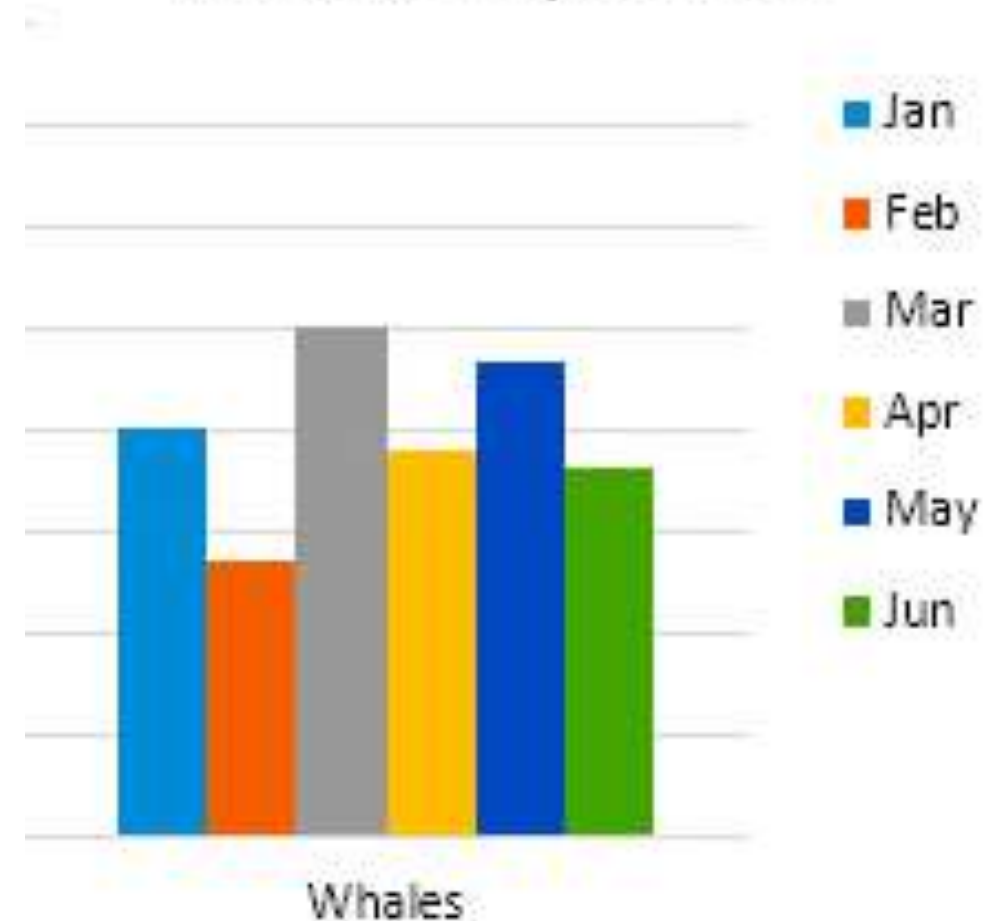

# Eligibility for this workshop

Persons with following qualities will benefit the most from this training:

- You have an issue on which you want to collect data
- Basic background of using MS Excel for analysis and charts is desirable
- Basic comfort with mobile apps & Internet

- Managing Data
- Data Visualisation
- Reporting

A screenshot of an ODK Collect data entry form. The title bar shows 'ODK Collect > Gairs..'. The form contains several text input fields and radio button groups. The fields are: '1. पंजीकरण संख्या' (GR/EDP), '2. क्लस्टर का नाम' (Aadibadri), '3. गांव का नाम' (Sirana), '4 उपाधि' (with radio buttons for Mr., Mrs., and Miss, where Miss is selected), and '5 युवा का नाम' (Asha). There is a second '4 उपाधि' section at the bottom with the same radio button options, where Mr. is selected.

**Looking forward to seeing you at the workshop!**

**Starting Feb 1<sup>st</sup> 2021**

**Register before Jan 25<sup>th</sup> to get a concession**

**NAMASTE**

# About Tathyashodh

- Tathyashodh was started by professionals with more than three decades of International Development Experience.
- It supports International NGOs and UN agencies for Monitoring, Evaluation, Data Collection and Trainings.
- We also develop proposals and multi-lingual mobile-based MIS systems including live dashboards.
- See <https://www.tathyaconsultants.com> for details.
