

Engineers' Training on "Decentralised Wastewater Treatment System"

10 October 2011

Dear Madam /Sir,

This is to inform you about our upcoming training programme on Decentralised Wastewater Treatment Systems (DEWATS).

Who?	Consortium for DEWATS Dissemination (CDD) Society , a not-for-profit organisation working in the field of decentralised basic need services across India
What?	6 days fully residential introductory training programme on Decentralised Wastewater Treatment Systems (DEWATS)
When?	From 5 th – 10 th December 2011
Where?	Centre for Advanced Sanitation Solutions (CASS), located in Kengeri, Bangalore
For whom?	Practitioners associated with design and implementation of domestic wastewater treatment units, wastewater management and other sanitation sector professionals from government, private and academic organisations
How much?	For a reduced course fee of Rs. 15,000/- (Rupees fifteen thousand only)*
Why?	Untreated domestic sewage from cities and towns is the biggest source of water pollution and environmental contamination all over the world. Decentralised approaches can provide an effective solution for urban centres.

CDD Society, along with its partner organisations, has successfully demonstrated that Decentralised Wastewater Treatment Systems (DEWATS) projects, a combination of various treatment modules, can effectively treat organic wastewater for a flow ranging from 1-1000 m³/day for wastewater from households, hotels, hospitals, institutions, housing colonies and organic wastewater from industries. This training programme aims to share the experiences and introduce **technical and social knowledge** as well as **practical** skills on decentralised elements and approaches for planning, designing, executing, operating and maintaining **sustainable DEWATS units**.

Please find enclosed the training brochure for more detailed information as well as the form to apply for the training. We request you to send back the filled registration form **by 15th November 2011**. As seats are limited to **20 participants**, relevant applicants will be selected by an expert committee and informed as soon as possible.

Please feel free to get back to us in case you need further clarifications.

Thanking you,
With Best Regards,

Renu Mukunda
Executive Coordinator
