

Hindustan Coca-Cola Beverages Pvt Ltd
Varanasi

Raghu.G.S
Raman Goel

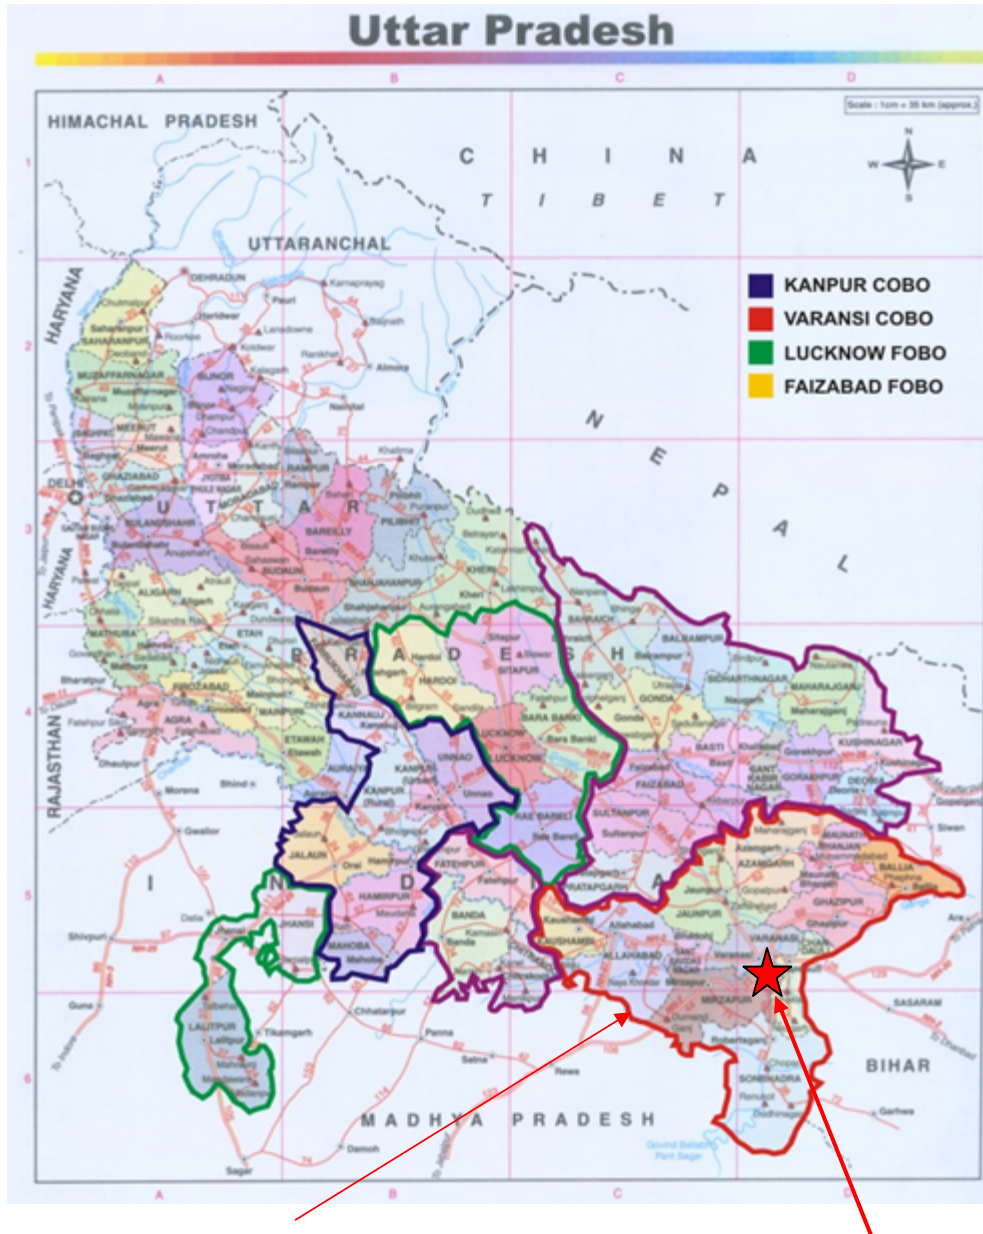

National Award for Excellence in Water Management - 2007

Outline

- Plant Introduction
- Beverage Manufacturing operation
- Plant Water usage without any recovery
- Vision – Water Resource Management
- WRM – Reduce
- WRM – Reuse
- WRM – Recycle
- Plant Water usage with recovery systems
- Recharge- Rain Water Harvesting
- Water Conservation Projects
- Way-forward
- Key Achievements and Recognition

Varanasi Plant

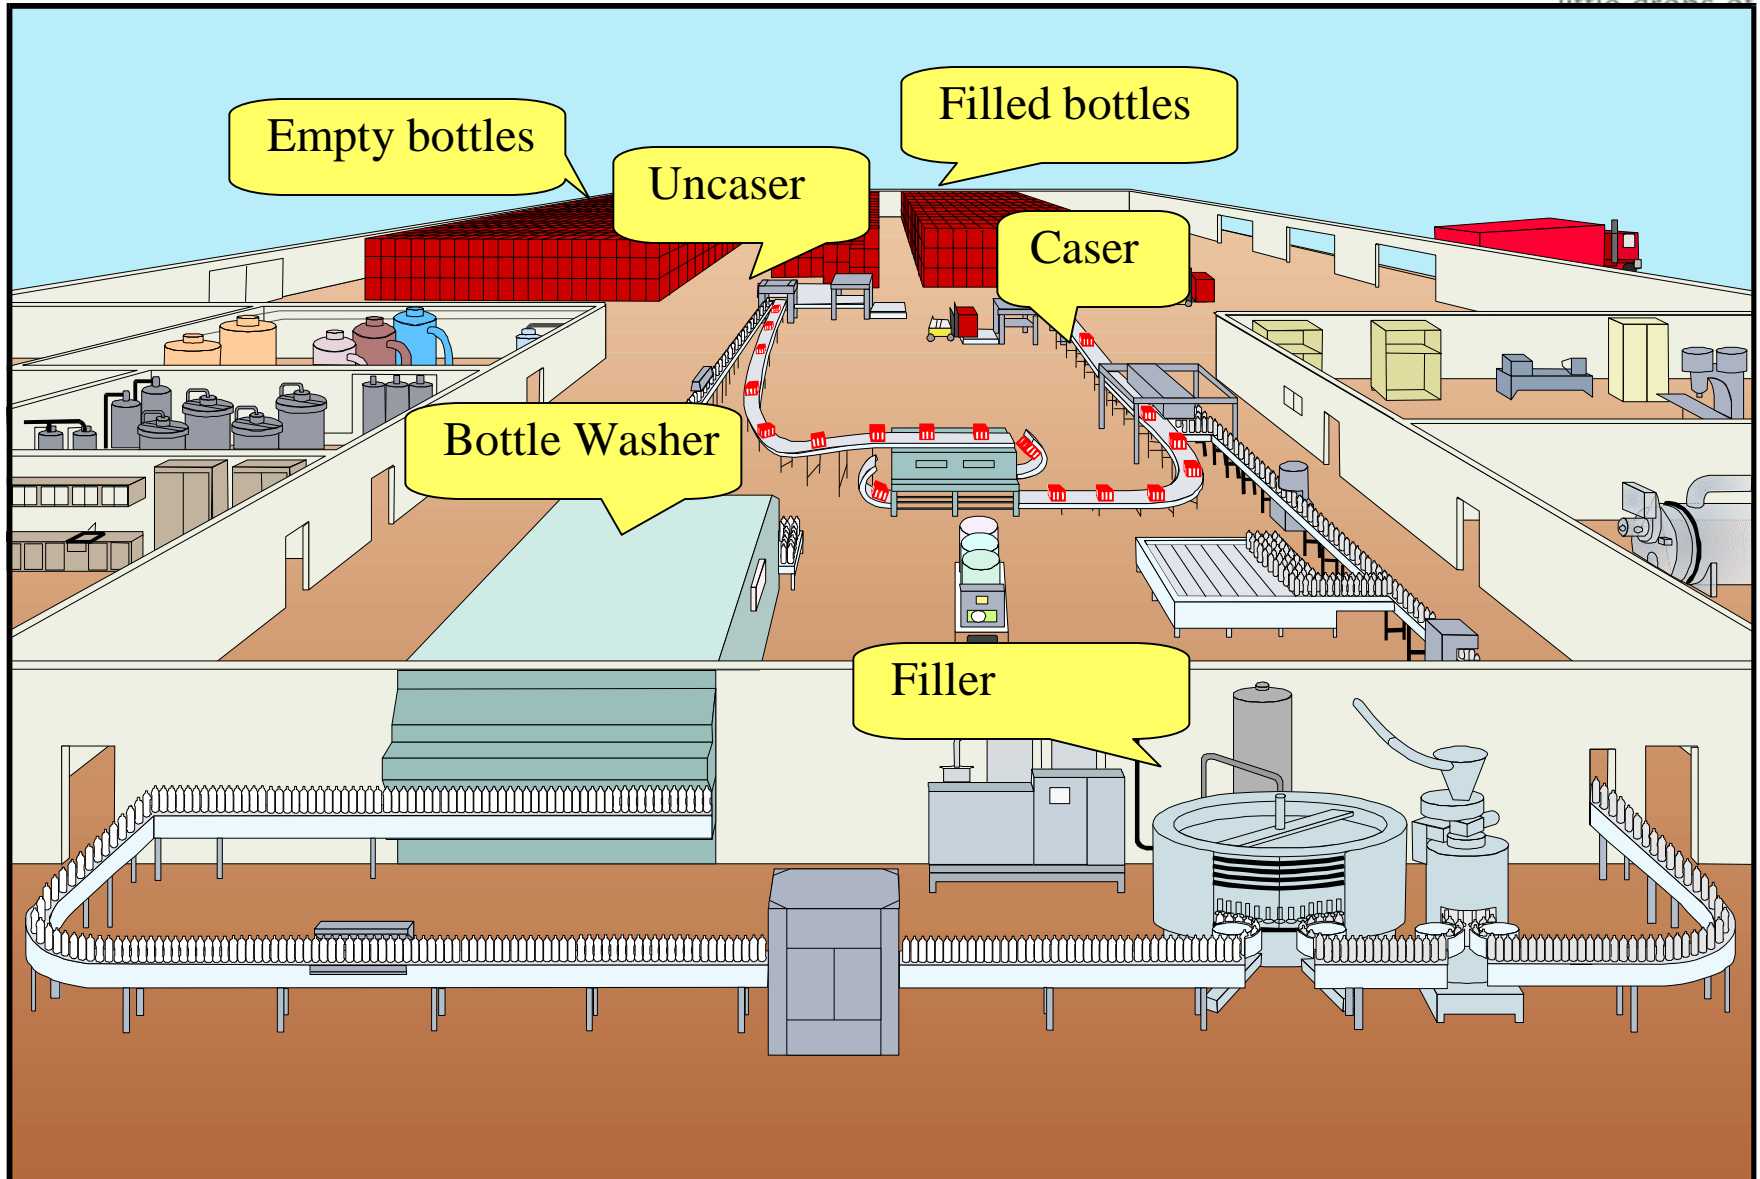

ALLAHABAD

VARANASI

- Located in Mehandiganj, 22km from Varanasi.
- Capacity 600 bpm line. Coca-Cola acquired in year 1999
- Total land area 6.8 acres
- Total investment of Rs 76 crores (Including market investment)

Beverage Manufacturing -Plant Layout

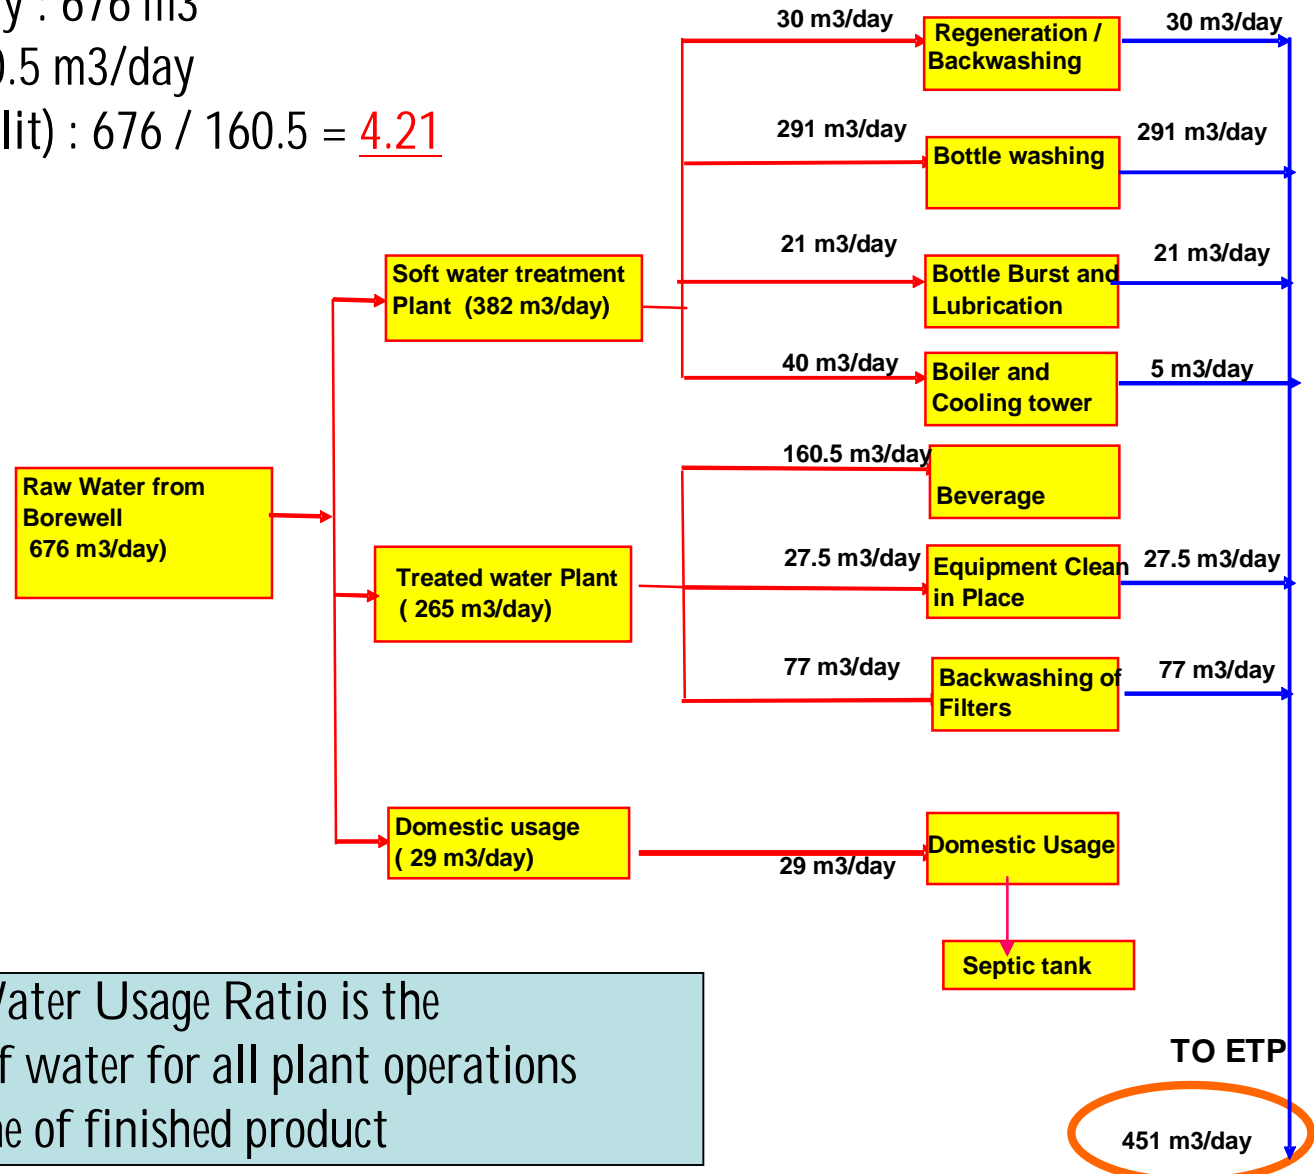

Water Usage in the Manufacturing operation (Without Water recovery schemes)

Raw water used peak day : 676 m³

Beverage generated : 160.5 m³/day

Water usage Ratio (lit/ lit) : $676 / 160.5 = 4.21$

Water Usage Ratio : Water Usage Ratio is the measurement of usage of water for all plant operations against the total volume of finished product

Water Resource Management Policy

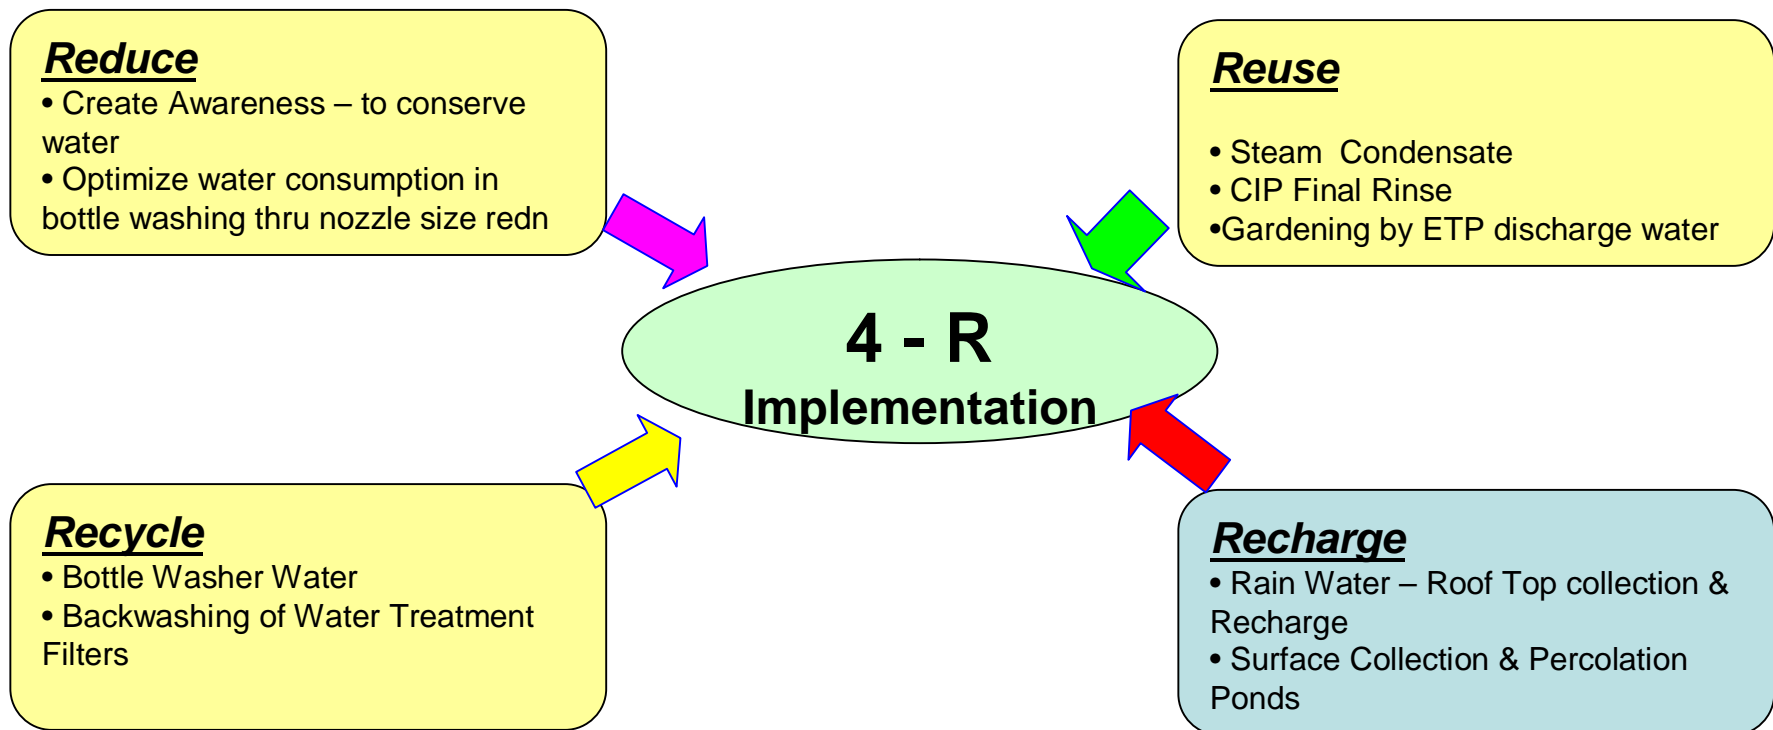

Mission

We the team "V" HCCBPL, Varanasi shall ensure efficient & effective use of water during beverage manufacturing process in our plant by continually improving the infrastructure, monitoring & controlling the consumption of water at individual areas & imparting awareness to our associates.

Vision

Efficiently reduce, re-use, recycle & recharge water as a responsible corporate citizen.

Water Conservation - Reduction

Reduce - Bottleswasher
Thru Project Aquasave

Water Saving Devices ... Project Aquasave

Awareness & employee engagement

Measuring the consumption through flow meters

Interlocking water flow with Bottle Washer operation

Arresting Leakage

Water Conservation By Reduction

Interlock

- Final rinse washing operation with running of the Bottle washer approx 8% saving

Reengineering

- Bottle washer jet size optimization to 1.5 mm from 2.5 mm
- Installation of push button type taps in washrooms

Process optimization

- Backwash timing and frequency optimization.

Awareness

- Emphasis on dry cleaning of floor
- WRM team in place to put into practice the vision

Water Conservation - Reuse

Water Conservation By Re-use

Last phase of CIP now re used (approx 30%) for first phase of next cycle

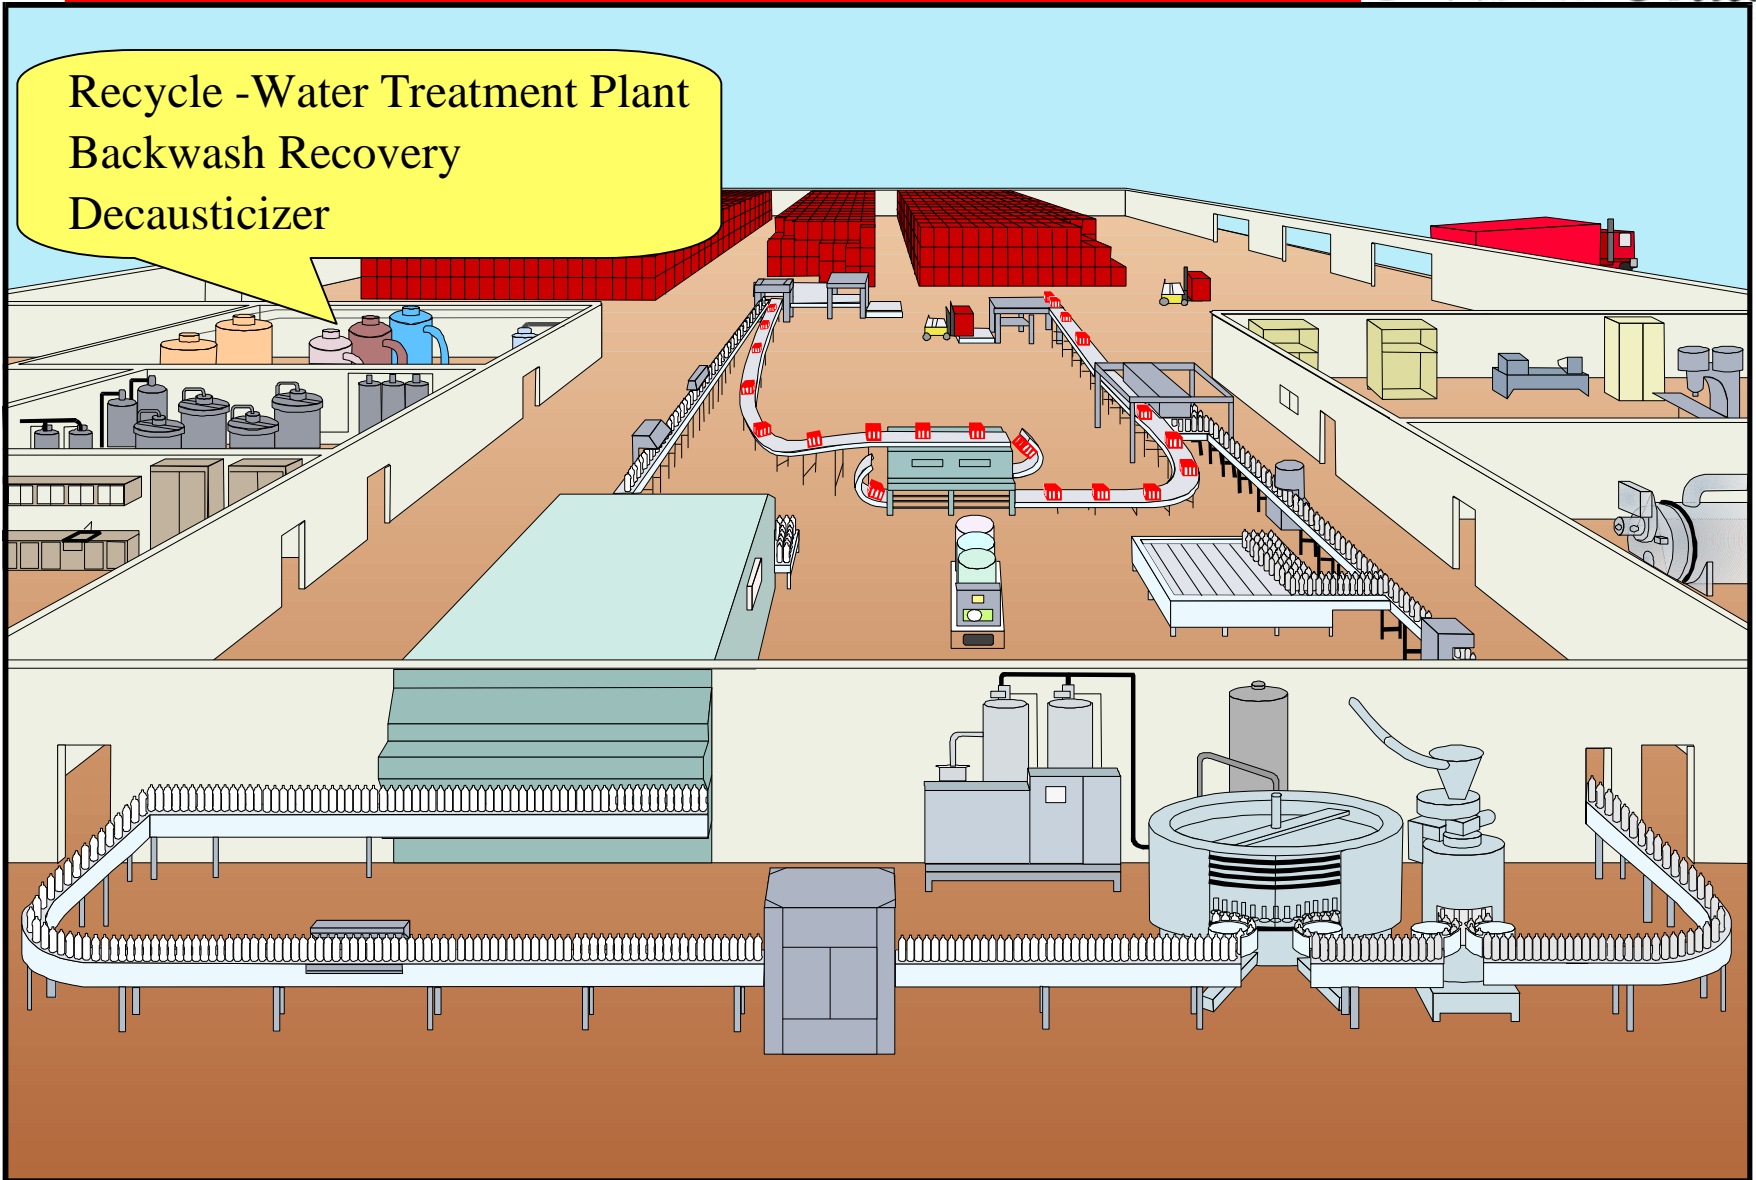

Use of ETP discharge water for gardening purposes about 50% of domestic water

About 65 % of steam condensed in system is taken back to boiler

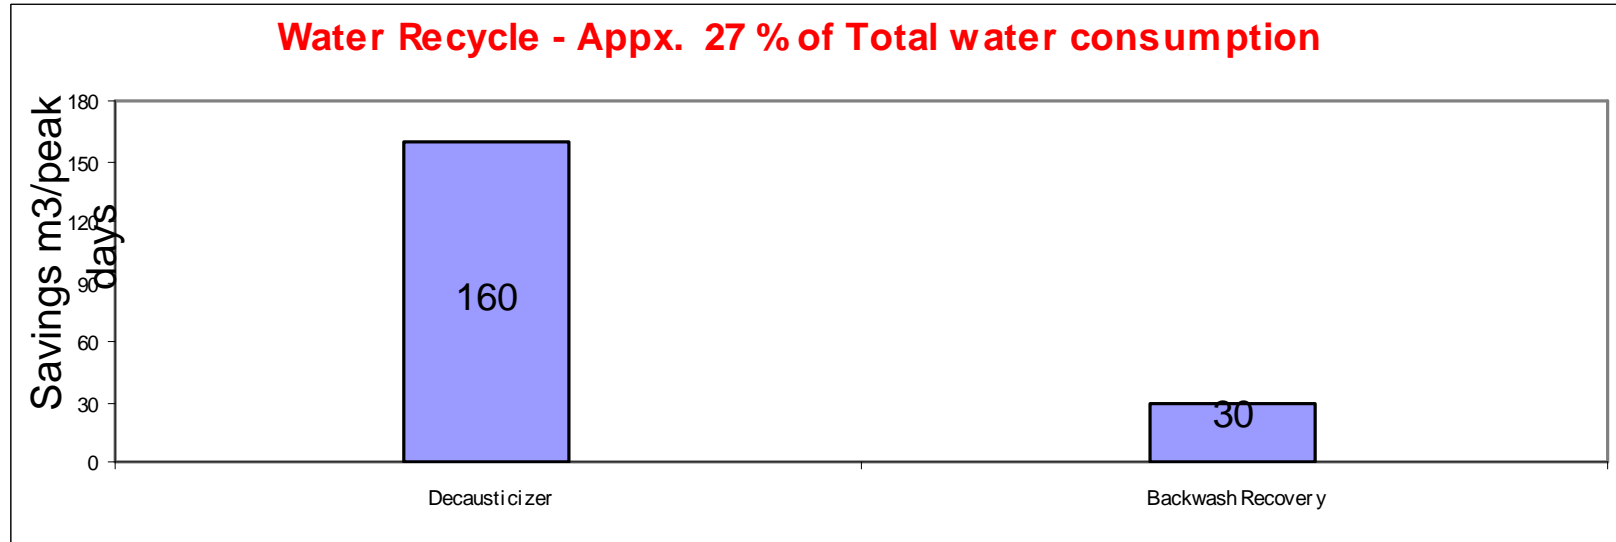

Water Conservation - Recycle

Recycle - Water Treatment Plant
Backwash Recovery
Decausticizer

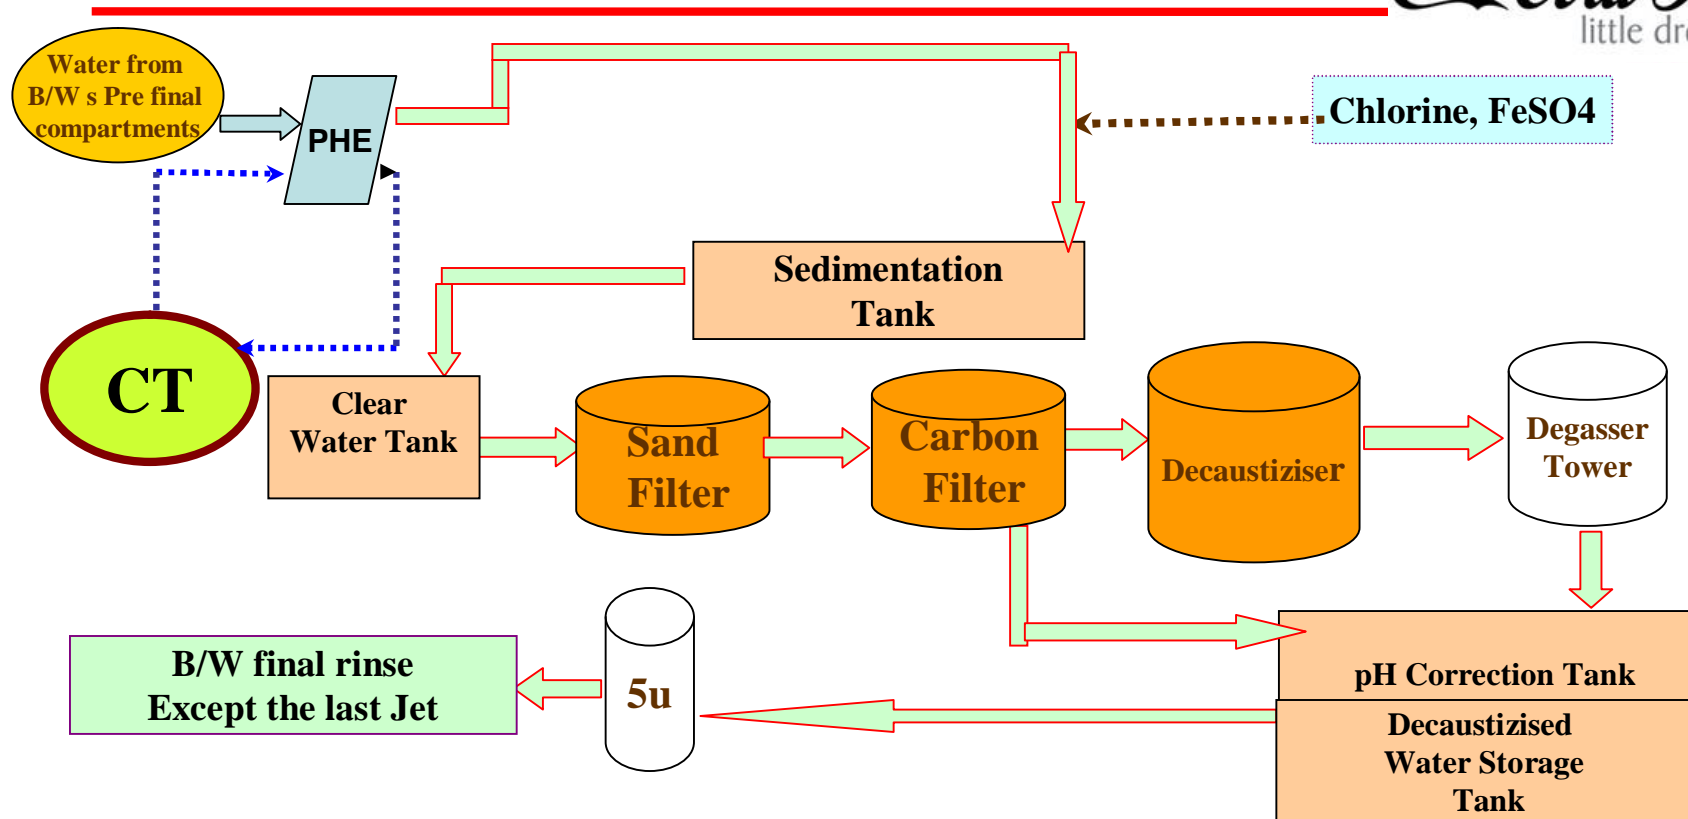

Water Conservation By Re-Cycling

Decausticizer – Recover, treat and reuse of water bottle washer final rinse, approx 65% reduction in water usage.

Taking backwash and rinse water from the filter washing application to Backwash recovery tank approx 85% saving

Decausticiser - Process Map

- Recover water from prefinal compartment of Bottle washer
- Pump to the sedimentation tank and filter the clear water through Sand and carbon filters & pass through ion exchange resin column for removal of caustic.
- Use back in bottle washer prefinal stage after chlorination
- Average recovery of water through this system is 160 KL/Day

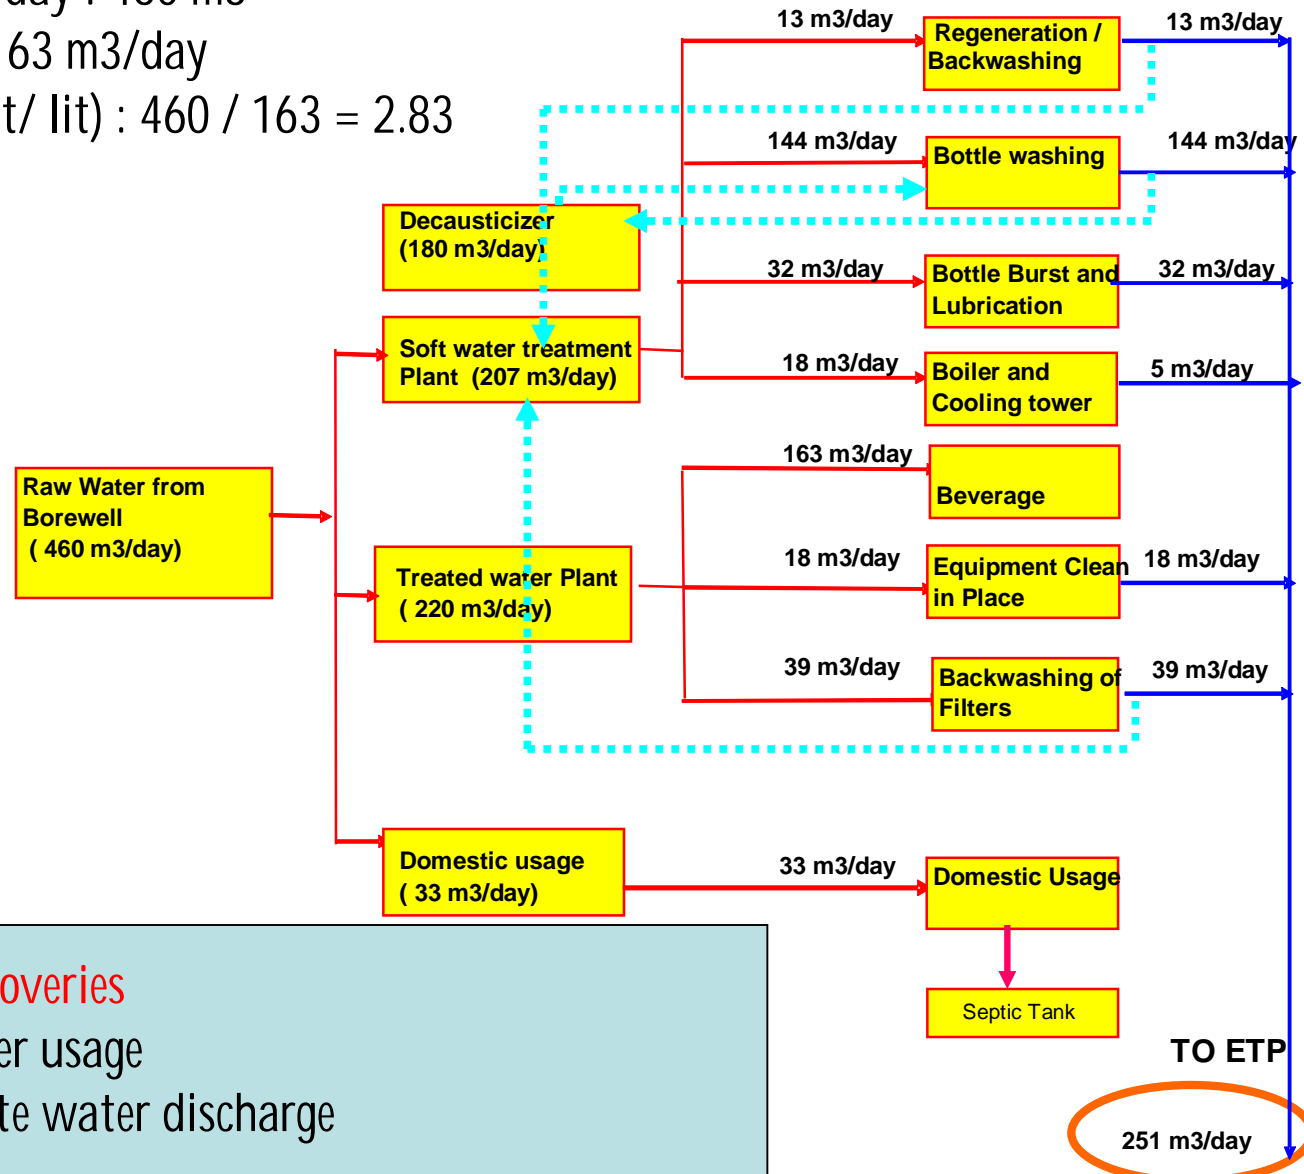

Water Usage in the Manufacturing operation – (With Water recovery schemes)

Raw water used peak day : 460 m³

Beverage generated : 163 m³/day

Water usage Ratio (lit/ lit) : $460 / 163 = 2.83$

With installation of recoveries

- 32% reduction in water usage
- 65% reduction in waste water discharge

Minimise Water Usage Ratio & Waste Water Discharge

From 2003 to 2007 there has been a reduction of 23% in WUR

Reduction in Waste Water Discharge by 68% in last four years

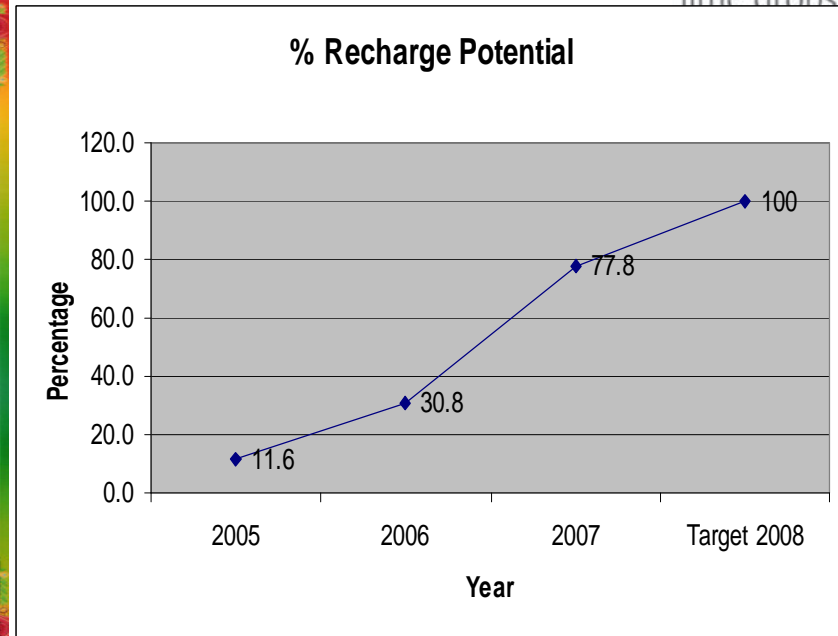

RWH Design

MODEL DESIGN FOR RECHARGE WELL METHOD (ROOF TOP RAIN WATER HARVESTING)

(Suitable for Roof Top Area - 300 - 400 Sqm. and Rainfall- 850 to 1000 mm.)

Recharge -Roof Top Harvesting Within Plant

- The Plant has implemented large scale rain water harvesting system
 - Total No of Projects: 18
 - Total Roof Area Covered: 43189 m²
 - Created Recharge potential: 32808 m³ which is 77% of the water drawn by the plant
 - Invested approx Rs 7 million in water conservation during last 4 years

Water conservation Projects at Krishi Vigyan Kendra & Indian Institute of Vegetable Research – Community

Water Initiatives at Kallipur – Agriculture institute

- Drip Irrigation- Pilot project for training and awareness among farmers and students.
- Beneficiaries 2007- approx 2500 people
- Rain Water Harvesting projects completed at Indian Institute of Vegetable Research Institute Jakhini, Varanasi.
- Covers 9550 sq meter roof top area having 7900 cubic meter recharge capacity.

Summary and Way Forward

- Reduction in **Water Usage** in last 4 years by **23%**.
- Reduction in Waste Water Discharge quantity by **68%** in last 4 years.
- Total **Investment in Recovery Schemes** is approx- **30 Lacs**.
- Total **Investment on Rain Water Harvesting** Projects is approx **70 lacs**.

Future Action Plans:

- **Water Usage Target for 2008 is 3.3** lower by 6% than current year
 - TTP Installation for Recycling of waste water.
 - Reduction in water usage in cleaning and sanitation of equipments by modifying the process.
 - Total Investment envisaged for the above is Rs 25 lacs.
- **Rain water harvesting:**
 - To create recharge potential of 10k m³ to achieve Zero Water Balance.
 - To take part in creating awareness in the community with Institutes and Agricultural Colleges.
 - Total Investment planned is Rs 50 lacs

Key Achievements.....

- ISO 9001:2000 certified plant by LRQA
- ISO 14001:2004 certified plant by DNV
- HACCP certified plant by DNV
- Awarded as “Best Employer” by UP State Govt. for employing “Physically Challenged” personnel.
- Golden Peacock Environmental Management Special Commendation Award 2006

Efforts get Recognized

Mrs. Vidhya Stokes, Minister of Power and Environment, Himanchal Pradesh presenting Golden Peacock Environment Management Special Commendation 2006 at Palampur– June 06

H.E. Shri T V Rajeshwar, Governor, felicitating Mr. Ashutosh Bhardwaj, AOD, Hindustan Coca-Cola Beverages Pvt. Ltd. Varanasi as Best Organisation of Uttar Pradesh-2006

We shall continue with our endeavors....

5 rain-harvesting projects launched

Dedication ceremony of rainwater harvesting projects in Ludhiana on February 23

KEEPING CHECKS ON WATER
COCA-COLA HAS LAUNCHED FIVE RAIN-HARVESTING PROJECTS IN LUDHIANA ON FEBRUARY 23. THE PROJECTS WILL HELP IN HARVESTING RAINWATER AND STORE IT IN UNDERGROUND TANKS FOR USE IN DRY SEASONS. THE PROJECTS WILL BE HELD AT THE FOLLOWING PLACES: 1. GURU NANAK DEV UNIVERSITY, 2. GURU NANAK DEV UNIVERSITY, 3. GURU NANAK DEV UNIVERSITY, 4. GURU NANAK DEV UNIVERSITY, 5. GURU NANAK DEV UNIVERSITY.

Coca-Cola will be chiller

THIS SUMMER COCA-COLA WILL BE THE CHILLER. THE COMPANY HAS LAUNCHED A NEW RANGE OF BEVERAGES TO HELP YOU STAY COOL AND REFRESHED. THE NEW RANGE INCLUDES COCA-COLA ZERO SUGAR, COCA-COLA LIGHT, AND COCA-COLA CLASSIC. THESE BEVERAGES ARE AVAILABLE AT ALL COCA-COLA VENDING MACHINES AND STORES.

बरसाती पानी का संरक्षण कर रहा कोका कोला

अमर उजाला

कोकाकोला के 5 नए वाटर हार्वीटिंग प्रोजेक्ट्स लुधियाना में शुरू
 लुधियाना, 23 फरवरी 2007
 कोकाकोला कंपनी ने लुधियाना में पांच नए वाटर हार्वीटिंग प्रोजेक्ट्स की शुरुआत की है। ये प्रोजेक्ट्स गुरु नानक देव विश्वविद्यालय, गुरु नानक देव विश्वविद्यालय, गुरु नानक देव विश्वविद्यालय, गुरु नानक देव विश्वविद्यालय, गुरु नानक देव विश्वविद्यालय में होंगे।

Coca-Cola Experience

- Implement Rainwater Harvesting projects in communities
- Spread the message of rainwater harvesting
- Voice our support for rainwater harvesting – Create Networks of like minded stakeholders

Win-Win For All

**One of the largest Developmental NGO,
Corpus nearly Rs 100 crores**
Focus : Sustainable Development

Partnership : Water Conservation in select areas, Film on Env Conservation

Rotary International – Chennai Chapter
Focus: Humanitarian Services ,Education

Partnership : Drinking Water, In & Around Chennai, in 100 schools

One of largest international NGO, part of UNO
Focus: Water and Sanitation

Partnership: In water sector, for India and Nepal, LOI exchanged

**..... other partners in
community projects**

RAJIV GANDHI FOUNDATION

Indian Army

**One of the most respected and credible
international NGO**

Focus : Sustainable Development

Partnership : Water Conservation, 3 states.
Tsunami rehabilitation

**An upcoming NGO, headed by an
alumnii of IIM, Bangalore**

Focus: on water conservation projects and
spreading awareness

Partnership : RWH in RWAs, schools in
Delhi

Apex Industry Association

**Focus: Public-Private partnerships through
community development projects**

**Partnership: Improved rural livelihood project in
Tirunellveli, Tamil Nadu and Dungarpur,
Rajasthan. Non formal education projects with
NGO, PRAYAS**

I can't speak.
But my voice
resonates in every sip.

Hi, I'm Suresh Varma. I can't hear or talk. But 80 of us from the Benares Deaf and Dumb School Association are working as bottle inspectors at Coca-Cola's bottling plant at Varanasi. Together we make sure that every Coca-Cola product that goes by us, delivers on quality. Hour after hour, day after day. This is my drop of joy.

To know more about how we spread joy, log on to www.coca-colaindia.com *Coca-Cola India Pvt. Ltd.*

Hindustan Coca-Cola Beverages Pvt Ltd, Varanasi

....and so we shall
continue to serve....
